
A
d_N
Median diff. (low − normal) = −0.000628
Wilcoxon p = 0.42
Segment perm. p = 0.72
Normal n = 7,115
Low n = 1,537
B
d_S
Median diff. (low − normal) = −0.00367
Wilcoxon p = 0.34
Segment perm. p = 0.6
Normal n = 7,115
Low n = 1,537
C
d_N/d_S
Median diff. (low − normal) = −0.00109
Wilcoxon p = 0.46
Segment perm. p = 0.82
Normal n = 7,115
Low n = 1,537
D
π_0
Median diff. (low − normal) = −0.00336
Wilcoxon p = 5.2e−157
Segment perm. p < 1e−04
Normal n = 13,341
Low n = 3,085
E
π_4
Median diff. (low − normal) = −0.0284
Wilcoxon p < 1e−300
Segment perm. p < 1e−04
Normal n = 12,930
Low n = 2,973
F
π_0/π_4
Median diff. (low − normal) = 0.0635
Wilcoxon p = 1.5e−14
Segment perm. p < 1e−04
Normal n = 12,461
Low n = 2,623
G
Tajima's D (CDS)
Median diff. (low − normal) = 0.109
Wilcoxon p = 9.8e−14
Segment perm. p = 0.015
Normal n = 12,736
Low n = 2,615
H
DoS
Median diff. (low − normal) = −0.0555
Wilcoxon p = 9.1e−48
Segment perm. p < 1e−04
Normal n = 6,244
Low n = 1,378
I
$-\log_{10}(NI)$
Median diff. (low − normal) = −0.17
Wilcoxon p = 3.3e−63
Segment perm. p < 1e−04
Normal n = 5,880
Low n = 1,223
J
α
Median diff. (low − normal) = −0.245
Wilcoxon p = 3.3e−63
Segment perm. p < 1e−04
Normal n = 5,880
Low n = 1,223
K
α_{TG}
Normal 0.557 (0.550−0.566)
Low 0.406 (0.384−0.437)
Normal n = 6,278
Low n = 1,393
L
$\alpha_{asymptotic}$
Normal 0.628 (0.624−0.632)
Low 0.567 (0.483−0.653)
Normal n = 6,278
Low n = 1,393
